

EDUCATIONAL TRAVEL

with Adventure Apes!

Adventure Apes' educational school camps in **Finland** - the land of a thousand lakes - are made to meet the needs of your students and your school curriculum.

Experience the Finnish nature and way of life. Canoe in clean, fresh lakes, ski in the pure white snow, try your hand in Finland's favorite sports and enjoy the amazing relaxation only the Finnish Sauna can bring.

Learn something new each day! Develop your leadership skills, take responsibility alongside your peers and specialized theme experts. Customize the camp content according to the learning objectives, age range and skill level of your group.

Whatever you choose, we'll make your stay an adventure of a lifetime!

Experience. Learn. Grow.

Maximize the potential of every student.

EDUCATION through an immersive, learning-by-doing approach

We utilize Finland's world-renowned approach to education.

Serving others & taking responsibility

Everyone contributes to the school camp and participates in everything from logistics to light kitchen work and the day's activities. This way each student learns and experiences teamwork and personal responsibility.

Learning by doing

Connecting learning to the physical world promotes self-directed learning while allowing individuals to learn at their own pace. Our camps are filled with hands-on activities and possibilities to learn new skills.

The Finnish nature as a classroom

Learning outside of the traditional classroom promotes exploration and discovery and sparks a curiosity about the natural world.

Reflective tasks

On some of our camps students will keep an Adventure Journal - this has proven to be a great learning tool giving them a wonderful memory of their time in Finland.

Our camps typically use a block scheduling system with two daytime adventures and an evening activity; meals and timing can be adjusted to the group. Here's an example of our day schedule:

9:00

Breakfast

10:00

Morning
adventure

13:00

Lunch

14:00

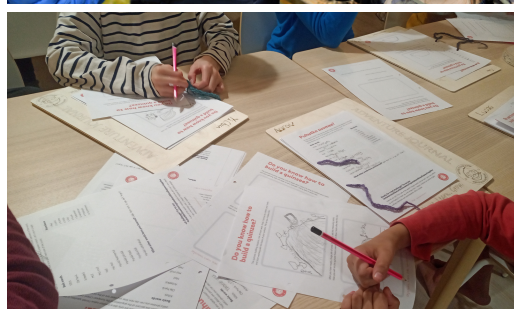

Afternoon
adventure

17:00

Dinner,
Sauna, Snack

20:00

Evening
activity

Steps from the classroom to outdoors

HOW TO PROCEED with your Educational Adventure Camp

1

Pick your season:
summer, autumn, winter or spring

Experience the beautiful mild summer in the lakes; Forage berries in the autumn colors and learn how nature prepares for winter; Experience the real winter with snow covered forests; See how the nature is awakening and the flowers start blooming in spring.

2

Choose your activity level:
easy, moderate or challenging

Would you like to challenge yourself with a multiday expedition camping in the wild? Or have tasters of our favorite activities of the season while sleeping comfortably in beds? Perhaps visit a local school or meet some locals?

Choose your desired activity level, group size, age group of students and interests.

3

Book a meeting:
with our educational travel experts

A 30 minute online meeting where you can share your wishes with our team and get your detailed quotation with a program suggestion, pricing, availability and inclusions & exclusions.

4

Get started:
your educational adventure camp in Finland

A single point contact before, during and after the camp. Pre tour information package includes all information needed. Online session with the students, guardians, teachers and our staff included in your package.

Experience. Learn. Grow.
